

ELISABETH EVANS

ASSOCIATE

As the newest member of Ellig Group, Elisabeth joins our Denver regional office as an Associate with a focus on identifying inclusive talent, market research, as well as leading the social media efforts on behalf of the Ellig Group team.

Elisabeth has returned to the Ellig Group after completing a nearly four year career move with a global operational excellence consulting firm based out of Denver, Colorado. There her emphasis was in human resources with a twist into business development. This allowed her to connect on all levels within the organization as well as in an external capacity.

Elisabeth graduated from the University of Miami with her Bachelors Degree. She is a certified facilitator of the DiSC measurement tool, as well as trained to administer the Kirton Adaption Inventory (KAI) instrument. In her pastime she is dedicated to her mentee through Denver Kids, as well as improving childhood literacy by way of social awareness to one of her favorite not for profits, Imagination Library.
